# BUILDER PROGRAM

Imagine a program that doesn't just meet expectations — it raises the bar. Under the leadership of Kevin Adams, Director of the Builder Program, IB Supply is built on two non-negotiables: reliability and customer support. With dedicated teams in Houston and North Texas, we don't just support builders — we position them to outperform.

Our Builder Program delivers a strategic lineup of top-tier, North American-crafted products designed to give builders and homeowners confidence at every level. TuffPlank, introduced in 2013, leads the charge with an exceptional quality track record, proven durability, and colors that are both classic and on trend — built to minimize callbacks and maximize long-term performance. As the sole distributor of Interceramic tile, featuring patented DURABODY® technology, we offer the durability of porcelain suitable for high-traffic areas with the ease of ceramic installation — strength without complication. As a proud distributor of DNA Tiles, we provide statement-making collections that transform ordinary rooms into unforgettable spaces.

Most importantly, our Builder Program products are stocked in the USA, with many proudly produced in the USA, delivering dependable inventory, faster fulfillment, and supply chain confidence when it matters most. This isn't just a product lineup. It's a performance-driven partnership built to outshine expectations.

# DUMAWALL

## WHAT IS DUMAWALL?

---

**Dumawall** is an oversized, waterproof RCB panel featuring a rigid core and a convenient tongue-and-groove design, making them perfect for quick home updates and installations. Durable and UV-resistant, they also provide an excellent solution for covering existing tiles.

## FAQs

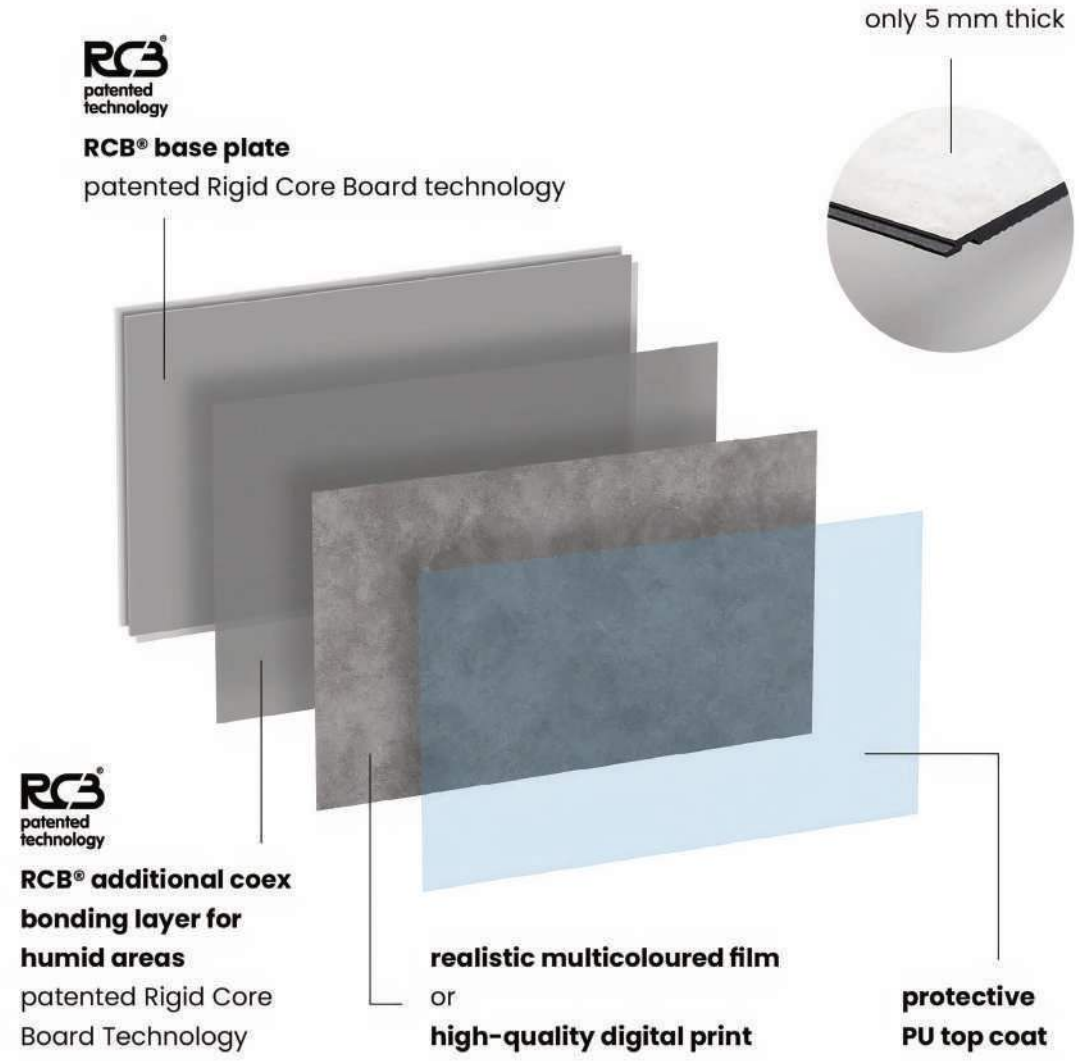

---

- Q: "How do I install Dumawall tiles?"
- A: **You can glue them directly onto old tiles by utilizing easy, jointless, tongue-and-groove connections.**
- Q: "Why should I choose Dumawall tiles?"
- A: **Dumawall tiles are perfect for renovations, offering easy assembly with a tongue-and-groove system, simple cutting options, and a jointless design for a seamless, authentic finish.**

FEATURED: ROME

# Dumawall

 Produced and Stocked In The USA  
2 - 3 week lead time

Our boards are manufactured using the revolutionary RCB<sup>®</sup> technology. RCB<sup>®</sup> stands for Rigid Core Board. This unique and patented technology ensures that the boards are extremely stable, water-resistant and safe. This also results in a very strong adhesion of the decor layer to the slab, preventing our decor layer from peeling. Dumawall is the ideal base for a shower that you will enjoy for a long time.

## INSTALL DIRECTLY ON EXISTING TILES

Watch  
Installation  
Video

## GLUING

This can be done directly on old tiles. Quickly and conveniently, without drying time and without grouting.
